

Trocando a URL ao clicar em abas com javascript

Um exemplo:

```
$('.nav-link').click(function(){  
    let href = $(this).attr('href');  
    var url = window.location.pathname+" "+window.location.search+href;  
    window.history.replaceState("", "", url);  
});
```

E pra clicar automaticamente nas abas ao carregar a página:

```
$(function(){  
    if(window.location.hash != "") {  
        $('` .nav-link[href="${window.location.hash}"]`).click();  
    }  
});
```
